June 28, 2022

To our valued clients:

We are pleased to announce the Board of Trustees of the HSBC Funds recently approved RadiantESG Global Investors LLC as the new sub-advisor for the HSBC Opportunity Fund. RadiantESG is a women-led and majority diverse-employee-owned investment manager that integrates environmental, social and governance (ESG) factors into its systematic investment processes. The RadiantESG investment team brings over sixty years of collective experience investing in large and small cap equities across U.S., global and emerging markets.

The team at RadiantESG, who will assume responsibility for the Fund on or about June 30, 2022, is fully committed to the long-term success of the Fund, which will be renamed "HSBC RadiantESG U.S. Smaller Companies Fund."

In conjunction with this change, the Fund's total expenses, including management fees, will be decreased by 20 bps. The Fund will maintain the current investment objective of seeking long-term growth of capital by investing primarily in equity securities of small- and mid-cap companies, benchmarked to the Russell 2500™ Growth Index.

The principal investment strategy will include the use of proprietary models to evaluate companies along key fundamental characteristics as well as to analyze the influences of environmental, social and governance (ESG) criteria on the companies in which the Fund invests, aiming to improve long-term risk-adjusted returns.

We are pleased to partner with RadiantESG, a dynamic, women-owned asset management firm focused on comprehensive and robust ESG investment solutions. We believe that their forward-looking approach anticipates the growing impact of ESG factors on longer-term corporate success and will benefit the Fund and its shareholders. HSBC and RadiantESG are jointly committed to progressing the full range of ESG issues and to delivering sustainable investment strategies that can drive positive change in our industry.

Sincerely,
