Includes the conversion of Class A Shares to Class D Shares and the redesignation of Class D Shares as Class A Shares at the close of business on October 29, 2023.
 Commencement of operations May 11, 2023.
 Not annualized for periods less than one year. Total return calculations do not include any sales or redemption charges.
 Annualized for periods less than one year.
 Calculated based on average shares outstanding.

1. Organization:

The HSBC Funds (the "Trust"), a Delaware statutory trust organized on March 2, 2016, is registered under the Investment Company Act of 1940, as amended (the "Act"), as an open-end management investment company. As of April 30, 2025, the Trust is comprised of 2 separate operational funds, each a series of the HSBC Family of Funds. The accompanying financial statements are presented for the following diversified funds (individually a "Fund", collectively the "Funds") of the Trust.

FundShort NameHSBC U.S. Government Money Market FundU.S. Government Money Market FundHSBC U.S. Treasury Money Market FundU.S. Treasury Money Market Fund

Both of the Funds are government money market funds (as defined in Rule 2a-7) and seek to maintain a stable net asset value ("NAV") of \$1.00 per share, although it is possible to lose money by investing in the Funds. The Funds are authorized to issue an unlimited number of shares of beneficial interest with a par value of \$0.001 per share. Each of the Funds has six classes of shares: Class A Shares, Class I Shares, Intermediary Class Shares, Intermediary Service Class Shares, Class P Shares and Class Y Shares. None of the share classes charge a sales load. Each class of shares in each Fund has identical rights and privileges, except with respect to arrangements pertaining to shareholder servicing and/or distribution, class-related expenses, voting rights on matters affecting a single class of shares, and exchange privileges.

Under the Trust's organizational documents, the Trust's Officers and Trustees are indemnified against certain liabilities arising out of the performance of their duties to the Funds. In addition, in the normal course of business, the Trust may enter into contracts with its service providers, which also provide for indemnifications by the Funds. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds. However, based on experience, the Trust believes the risk of loss to be remote.

The Funds are investment companies and follow accounting and reporting guidance under Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946, "Financial Services-Investment Companies."

2. Significant Accounting Policies:

The following is a summary of the significant accounting policies followed by the Funds in the preparation of their financial statements. The policies are in conformity with generally accepted accounting principles in the United States of America ("GAAP"). The preparation of financial statements requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

Securities Valuation:

Investments of the Funds, other than investments in other money market funds, are valued using the amortized cost method pursuant to Rule 2a-7 under the Act, provided that certain conditions are met. Generally, amortized cost approximates fair value. Investments in other money market funds are priced at NAV as reported by such investment companies. Repurchase agreements are valued at original cost. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The valuation techniques used to determine fair value are further described in Note 3 below.

Investment Transactions and Related Income:

Investment transactions are accounted for no later than one business day after trade date. However, for financial reporting purposes, investment transactions are accounted for on trade date on the last business day of the reporting period. Investment gains and losses are calculated on the identified cost basis. Interest income is determined on the basis of coupon interest accrued using the effective interest method which adjusts for amortization of premiums and accretion of discounts. Dividend income is recorded on the ex-dividend date.

Repurchase Agreements:

The U.S. Government Money Market Fund may enter into repurchase agreements with an entity which is a member of the Federal Reserve System or which is a "primary dealer" (as designated by the Federal Reserve Bank of New York) in U.S. government obligations. The U.S. Government Money Market Fund may also enter into a repurchase agreement with the Federal Reserve Bank of New York, the Fixed Income Clearing Corporation, or certain counterparties approved by the Investment Adviser (as defined in Note 4 - Related Party Transactions and Other Agreements and Plans). The U.S. Treasury Money Market Fund may temporarily invest in repurchase agreements collateralized by U.S. Treasury Obligations under adverse market conditions. The repurchase price generally equals the price paid by a Fund plus interest negotiated on the basis of current short-term rates, which may be more or less than the rate on the underlying portfolio securities. The seller, under a repurchase agreement, is required to maintain the collateral held pursuant to the agreement, with a fair value equal to or greater than the repurchase price (including accrued interest). Securities subject to repurchase agreements are held by the Funds' custodian or another qualified custodian or in the Federal Reserve/Treasury book-entry system. Master Repurchase Agreements ("MRA") permit the Fund, under certain circumstances, including an event of default (such as bankruptcy or insolvency), to offset receivables under the MRA with collateral posted by the counterparty and create one net payment due to or from the Fund. However, bankruptcy or insolvency laws of a particular jurisdiction may impose restrictions on or prohibitions against such a right of offset in the event of the MRA counterparty's bankruptcy or insolvency. Pursuant to terms of the MRA, the Fund receives securities as collateral with a market value in excess of the repurchase price to be received by the Fund upon the maturity of the transaction. Upon bankruptcy or insolvency of the MRA counterparty, the Fund would recognize a liability with respect to such excess collateral to reflect the Fund's obligation under bankruptcy law to return the excess to the counterparty. There is potential for loss to a Fund in the event the Fund is delayed or prevented from exercising its rights to dispose of the collateral securities, including the risk of a possible decline in the fair value of the underlying securities during the period while the Fund seeks to assert its rights.

Cash:

Cash is held in deposit accounts at the Funds' custodian bank, State Street Bank and Trust Company ("Custodian"), and may represent a significant portion of a Fund's net assets, which may exceed the amount insured by the Federal Deposit Insurance Corporation ("FDIC"). To the extent that such balances exceed FDIC insurance limits, the Funds are subject to the creditworthiness of the Custodian.

Allocations:

Expenses directly attributable to a Fund are charged to that Fund. Expenses not directly attributable to a Fund are allocated between the Funds, in relation to a Fund's net assets or another appropriate basis. Class specific expenses are charged directly to the class incurring the expense. In addition, income, expenses (other than class specific expenses), and unrealized and realized gains and losses are allocated to each class based on relative net assets on a daily basis.

Distributions to Shareholders:

Dividends distributed to shareholders of the Funds from net investment income, if any, are declared daily and distributed monthly from each Fund. Distributions from net realized gains, if any, are declared and paid at least annually by the Funds. Additional distributions are also made to the Funds' shareholders to the extent necessary to avoid the federal excise tax on certain undistributed income and net realized gains of regulated investment companies.

Federal Income Taxes:

Each Fund is a separate taxable entity for federal income tax purposes. Each Fund has qualified and intends to continue to qualify each year as a "regulated investment company" under Subchapter M of the Internal Revenue Code, as amended, and to distribute substantially all of its taxable net investment income and net realized gains, if any, to its shareholders. Accordingly, no provision for federal income or excise tax is required for the Funds, although shareholders may be taxed on distributions they receive.

Management of the Funds has reviewed tax positions taken in tax years that remain subject to examination by all major tax jurisdictions, including federal (i.e., the last four tax year ends and the interim tax period since then, as applicable). Management believes that there is no tax liability resulting from unrecognized tax benefits related to uncertain tax positions taken. Management's conclusions may be subject to future review based on changes in, or interpretation of, accounting standards or tax laws and regulations.

Segment Reporting:

The Trust has adopted FASB Accounting Standards Update ("ASU") 2023-07, Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures. Adoption of this standard impacted the Funds' financial statement disclosures only and did not affect the Funds' financial positions or the results of their operations. An operating segment is defined in Topic 280 as a component of a public entity that engages in business activities from which it may recognize revenues and incur expenses, has operating results that are regularly reviewed by the public entities' chief operating decision maker ("CODM") to make decisions about resources to be allocated to the segment and assess its performance, and has discrete financial information available. The CODM is the President of the Trust. Each Fund operates as a single operating segment. Each Fund's income, expenses, assets, changes in net assets resulting from operations and performance are regularly monitored and assessed as a whole by the CODM responsible for oversight functions of the Funds, using the information presented in the financial statements and financial highlights.

3. Investment Valuation Summary

The valuation techniques employed by the Funds, as described below, maximize the use of observable inputs and minimize the use of unobservable inputs in determining fair value. The Funds' investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs used for valuing the Funds' investments are summarized in the three broad levels listed below:

- Level 1—quoted prices (unadjusted) in active markets for identical assets
- Level 2—other significant observable inputs (including quoted prices for similar securities, interest rates, prepayments speeds, credit risk, etc.)
- Level 3—significant unobservable inputs (including the Investment Adviser's own assumptions in determining the fair value of investments)

Changes in valuation techniques may result in transfers in or out of an assigned level within the fair value hierarchy. The inputs or methodology used for valuing investments are not necessarily an indication of the risk associated with investing in those investments.

Investments of the Funds, other than investments in other money market funds, are valued using the amortized cost method pursuant to Rule 2a-7 under the Act, and are typically categorized as Level 2 in the fair value hierarchy. The amortized cost method involves valuing an instrument at its cost initially and thereafter assuming a constant amortization to maturity of any discounts or premium, regardless of the impact of fluctuating interest rates on the market value of the instrument. The amortized cost method may result in periods during which value, as determined by amortized cost, is higher or lower than the price a Fund holding the instrument would receive if it sold the instrument. The fair value of securities in the Funds can be expected to vary with changes in prevailing interest rates.

Investments in other money market funds are priced at NAV as reported by such money market funds and are typically categorized as Level 1 in the fair value hierarchy.

The following is a summary of the valuation inputs used as of April 30, 2025 in valuing the Funds' investments based upon the three levels defined above. The breakdown of investment categorization is disclosed in the Schedule of Portfolio Investments for each Fund.

	Level 1 (\$)	Level 2 (\$)	Level 3 (\$)	Total (\$)

4. Related Party Transactions and Other Agreements and Plans:

Investment Management:

HSBC Global Asset Management (USA) Inc. ("HSBC" or the "Investment Adviser"), a wholly owned subsidiary of HSBC USA, Inc., a registered bank holding company under the laws of the United States, acts as Investment Adviser to the Funds. As Investment Adviser, HSBC manages the investments of the Funds and continuously reviews, supervises and administers the Funds' investments pursuant to an Investment Advisory Contract. For its services in this capacity, HSBC receives a fee from each Fund, accrued daily and paid monthly, based on the average daily net assets of each respective Fund, at an annual rate of 0.10%.

HSBC also provides operational support services to the Funds pursuant to an Operational Support Services Agreement in connection with the operation of certain classes of shares of the Funds. For its services in this capacity, HSBC is entitled to receive a fee, accrued daily and paid monthly, based on the average daily net assets of Class A Shares, Intermediary Class Shares, Intermediary Service Class Shares, Class P Shares and Class Y Shares, at an annual rate of 0.10%.

HSBC has entered into agreements with certain financial intermediaries (the "Servicers") to provide recordkeeping, reporting and processing services to the Funds. The Servicers are paid by the Investment Adviser, and not by the Funds, for these services. Since these fees are paid for by the Investment Adviser, they do not represent an additional charge to the Funds or their shareholders and are not reflected in the Funds' expenses.

Administration, Fund Accounting and Other Services:

HSBC also serves the Funds as Administrator. Under the terms of the Amended and Restated Administration Services Agreement, HSBC receives from the Funds a fee, accrued daily and paid monthly, at an annual rate of two basis points (0.02%) of average daily net assets. The fee rate is determined on the basis of the aggregate average daily net assets of the Trust. The total administration fee paid to HSBC is allocated to each Fund based upon its proportionate share of the aggregate net assets of the Trust.

State Street Bank and Trust Company ("State Street") serves as Sub-Administrator to the Funds and provides fund accounting, custody, fund administration, regulatory administration and certain other services to the Funds pursuant to a Master Services Agreement with the Trust. For its services, State Street is entitled to a fee, payable by the Funds, based on a Fund's net assets, subject to per Fund fees, miscellaneous fees and reimbursements of certain expenses.

Under the Amended and Restated Fund PFO/Treasurer, CCO, Secretary and AMLO Agreement between Foreside Fund Officer Services, LLC ("Foreside") and the Trust, Foreside makes individuals available to serve as the Trust's Chief Compliance Officer, Anti-Money Laundering Officer, Treasurer and Secretary and other individuals available to support such officers. For the services provided under that agreement, the Trust paid Foreside \$217,223 for the six-month period ended April 30, 2025, including reimbursement of certain out-of-pocket expenses. Compliance services fees incurred by each Fund are reflected on the Statements of Operations as "Compliance Services" and the other services fees are included in "Other" on the Statements of Operations. Foreside pays the salary and other compensation earned by individuals performing these services.

Distribution Arrangements:

Foreside Distribution Services, L.P. ("Foreside" or the "Distributor") serves the Trust as Distributor. The Trust has adopted a non-compensatory Distribution Plan and Agreement (the "Distribution Plan") pursuant to Rule 12b-1 of the Act. The Distribution Plan provides for reimbursement of expenses incurred by the Distributor related to distribution and marketing, at a rate not to exceed 0.25% of the average daily net assets of Class A Shares (currently not being charged) of the Funds.

Shareholder Servicing:

The Trust has adopted a Shareholder Services Plan, which provides for payments to shareholder servicing agents (which includes HSBC and its affiliates) for providing various shareholder services. For performing these services, the shareholder servicing agents are entitled to receive a fee that is computed based on average daily net assets and paid monthly up to the following:

Share Class	Fee Rate (%)
Class A Shares	0.25
Intermediary Class Shares	0.05
Intermediary Service Class Shares	0.10
Class P Shares	0.05

The aggregate fees paid to the Distributor pursuant to the Distribution Plan and to shareholder servicing agents pursuant to the Shareholder Services Plan may not exceed, in the aggregate, the following:

Share Class	Fee Rate (%)
Class A Shares	0.25
Intermediary Class Shares	0.05
Intermediary Service Class Shares	0.10
Class P Shares	0.05

The Trust has entered into shareholder services contracts with affiliated and unaffiliated financial intermediaries who provide shareholder services and other related services to their clients or customers who invest in the Funds under which the Funds will pay all or a portion of the fees incurred by such financial intermediaries for performing such services.

Transfer Agency:

State Street serves as the transfer agent for each Fund, and has delegated its responsibilities to SS&C Global Investor and Distribution Solutions, Inc. ("SS&C"). As sub-transfer agent, SS&C receives a fee based on the number of funds and shareholder accounts, subject to certain minimums, and reimbursement of certain expenses.

Independent Trustees:

The Trust pays an annual retainer to each Independent Trustee, plus additional annual retainers to each Committee Chair and the Chairman of the Board of Trustees (the "Board"). The Independent Trustees also receive a fee for each regular, special, and informational meeting of the Board attended. The aggregate amount of the fees and expenses of the Independent Trustees are allocated between the Funds and are presented in the Statements of Operations.

Fee Reductions:

The Investment Adviser has agreed to contractually limit through February 28, 2026 the total annual expenses of certain classes of the Funds, exclusive of interest, taxes, brokerage commissions, extraordinary expenses and estimated indirect expenses attributable to each Fund's investments in other investment companies, as applicable.

The applicable classes of each Fund have their own expense limitations based on the average daily net assets for any full fiscal year as follows:

	Class	Contractual Expense Limitations (%)
U.S. Government Money Market Fund		0.14
	Intermediary Class	
U.S. Government Money Market Fund	Shares	0.18
	Intermediary Service	
U.S. Government Money Market Fund	Class Shares	0.20
U.S. Government Money Market Fund	Р	0.18
U.S. Treasury Money Market Fund	1	0.14
	Intermediary Class	
U.S. Treasury Money Market Fund	Shares	0.18
	Intermediary Service	
U.S. Treasury Money Market Fund	Class Shares	0.20
U.S. Treasury Money Market Fund	Р	0.18

Any amounts contractually waived or reimbursed by the Investment Adviser will be subject to repayment by the respective Fund to the Investment Adviser within three years calculated monthly from when the waiver or reimbursement is recorded to the extent that the repayment will not cause the Fund's operating expenses to exceed the contractual expense limit that was in effect at the time of such waiver or reimbursement. As of April 30, 2025, there was no contingent liability.

As of April 30, 2025, the repayments that may potentially be made by the Funds are as follows:

		Amount Elig	gibie i nrougn	
	April 30,	April 30,	April 30, 2026 (\$)	Total (¢)
	2028 (\$)	2027 (\$)	2026 (\$)	Total (\$)
U.S. Government Money Market Fund	5,371,780	4,502,213	5,886,588	15,760,581
U.S. Treasury Money Market Fund	2,624,728	2,310,059	2,632,115	7,566,902

In addition to the contractual expense limitation agreement with the Funds, HSBC, in its role as Investment Adviser and Administrator, may waive/reimburse additional fees at its discretion. Any voluntary fee waivers/reimbursements are not subject to repayment in subsequent fiscal periods. Voluntary waivers/reimbursements may be eliminated or changed at any time. Amounts waived/reimbursed by the Investment Adviser and/or Administrator are reported on the Statements of Operations, as applicable.

During the six-month period ended April 30, 2025, the following amounts of expenses were voluntarily and/or contractually waived:

			Intermediary	,	
	Class I (\$)	Intermediary Class (\$)	Service Class (\$)	Class P (\$)	Total (\$)
U.S. Government Money Market Fund		1,420,504	1,802,853	117,854	3,341,211
U.S. Treasury Money Market Fund	171,522	477,026	638,852	176,129	1,463,529

Affiliated Securities Transactions:

The Funds are permitted to effect purchase and sale transactions with affiliated funds under procedures adopted by the Board. The procedures have been designed to seek to ensure that any such security transaction complies with certain conditions of Rule 17a-7 of the Act. Further, as defined under the procedures, each transaction is effected at the current market price. Pursuant to these procedures, for the six-month period ended April 30, 2025, the Funds did not engage in Rule 17a-7 transactions.

5. Investment Risks:

The risks are presented in an order intended to facilitate readability, and their order does not imply that the realization of one risk is likely to occur more frequently than another risk, nor does it imply that the realization of one risk is likely to have a greater adverse impact than another risk.

Interest Rate Risk: Fluctuations in interest rates may affect the yield, volatility, liquidity and value of investments in income-producing or debt instruments. Generally, if interest rates rise, the value of such investments will fall. In addition, rising interest rates could lead to heightened investment volatility and decreased liquidity. During periods of falling interest rates, borrowers may pay off their debt sooner than expected, forcing the reinvestment of principal proceeds at lower interest rates, resulting in less interest income. Conversely, during periods of rising interest rates, borrowers may pay off their debt later than expected, thereby preventing reinvestment of principal proceeds at higher interest rates, increasing a Fund's sensitivity to changes in interest rates and resulting in less income to the Fund than potentially available. The Funds may face a heightened level of interest rate risk due to certain changes in monetary policy, such as certain interest rate changes by the U.S. Federal Reserve. A low interest rate environment poses additional risks to the Funds. Low yields on a Fund's portfolio holdings may have an adverse impact on the Fund's ability to provide a positive yield to shareholders, pay expenses out of current income, or, at times, maintain a stable \$1.00 share price and/or achieve its investment objective. Interest rate changes can be sudden and unpredictable, and a Fund may lose money if these changes are not anticipated by the Investment Adviser. A wide variety of factors can cause interest rates or yields to rise or fall (e.g., central bank monetary policies, inflationary or deflationary pressures, changing inflation or real growth rates, general market and economic conditions, etc.). The risks associated with changing interest rates may have unpredictable effects on the markets and a Fund's investments. Recently, the interest rates in the United States rose from historically low levels and the U.S. Federal Reserve and other countries' central banks increased interest rates in response to global inflation. It is unclear whether interest rates will remain at current levels.

Market Risk: The value of a Fund's investments may decline due to changing economic, political, social, regulatory or market conditions. Issuer, political, economic, regulatory, social or market developments can affect a single issuer, issuers within an industry or economic sector, or the market as a whole. In the short term, a Fund's investments can fluctuate dramatically in response to these developments. Different parts of the market and different types of securities can react differently to these developments. Moreover, the conditions in one country or geographic region could adversely affect a Fund's investments in a different country or geographic region due to increasingly interconnected global economies and financial markets. In addition, market risk includes the risk that geopolitical and other events will disrupt the economy on a regional, national or global level. Events such as war, acts of terrorism, regional conflicts, market manipulation, government defaults, government shutdowns, natural/environmental disasters, inflation, rapid interest rate changes, supply chain disruptions, international sanctions, tariffs and other restrictions on trade, global recessions, social or political unrest or instability, the spread of infectious illness or other public health threats could also significantly impact a Fund and its investments, including in ways that cannot be foreseen. A Fund could be negatively impacted if the values of its investments were harmed by such events. Any market disruptions could also prevent a Fund from executing investment decisions in a timely manner.

U.S. Government Securities Risk: There are different types of U.S. Government Securities with different levels of credit risk. Some U.S. Government Securities are issued or guaranteed by the U.S. Treasury and are supported by the full faith and credit of the United States. Other types of U.S. Government Securities are supported by the full faith and credit of the United States (but not issued by the U.S. Treasury). These securities have the lowest credit risk, although they are not risk free and may default. Still other types of U.S. Government Securities are: (1) supported by the ability of the issuer to borrow from the U.S. Treasury; (2) supported only by the credit of the issuing agency, instrumentality or government-sponsored corporation; (3) supported by pools of assets (e.g., mortgage-backed securities); or (4) supported by the United States in some other way. Certain U.S. Government Securities are riskier than others. The relative level of risk depends on the nature of the particular security and government support. A U.S. government-sponsored entity, although chartered or sponsored by an Act of Congress, may issue securities that are neither insured nor guaranteed by the U.S. Treasury and are riskier than those that are. Regarding certain federal agency securities or government sponsored entity securities (such as debt securities or mortgage-backed securities issued by Federal National Mortgage Association ("Fannie Mae"), Federal Home Loan Mortgage Corporation ("Freddie Mac"), Federal Farm Credit Banks, Federal Home Loan Banks, and other government sponsored agencies), investors should be aware that although the issuer may be chartered or sponsored by an Act of Congress, the issuer is not funded by congressional appropriations, and its securities are neither guaranteed nor insured by the U.S. Treasury. Fannie Mae and Freddie Mac have been operating under conservatorship, with the Federal Housing Finance Agency acting as their conservator, since September 2008. This risk does not apply to the HSBC U.S. Treasury Money Market Fund, which normally invests only in obligations of the U.S. Treasury and does not invest in obligations issued or guaranteed by agencies or instrumentalities of the U.S. government.

6. Federal Income Tax Information:

As of the six-month period ended April 30, 2025, the cost basis of investments for federal income tax purposes, gross unrealized appreciation, gross unrealized depreciation and net unrealized appreciation/ (depreciation) were as follows:

	Tax Cost (\$)	Tax Unrealized Appreciation (\$)	Tax Unrealized (Depreciation) (\$)	Net Unrealized Appreciation/ (Depreciation) (\$)
U.S. Government Money Market Fund	43,291,971,219	_	_	_
U.S. Treasury Money Market Fund	5,903,665,177	_	_	_

Notes to Financial Statements - April 30, 2025 (Unaudited) (continued)

The tax character of distributions paid by the Funds for the tax year ended October 31, 2024, was as follows:

	Distributions paid from		
	Ordinary Income (\$)	Total Taxable Distributions (\$)	Total Distributions Paid (\$)
U.S. Government Money Market Fund	1,863,462,806	1,863,462,806	1,863,462,806
U.S. Treasury Money Market Fund	260,712,363	260,712,363	260,712,363

The tax character of distributions paid by the Funds for the tax year ended October 31, 2023, was as follows:

	Distributions paid from		
	Ordinary Income (\$)	Total Taxable Distributions (\$)	Total Distributions Paid (\$)
U.S. Government Money Market Fund	1,636,047,810	1,636,047,810	1,636,047,810
U.S. Treasury Money Market Fund	212,589,767	212,589,767	212,589,767

As of the tax year ended October 31, 2024, the components of accumulated earnings/(deficit) on a tax basis for the Funds were as follows:

	Undistributed		Accumulated Capital and	Unrealized Appreciation/	Total Accumulated
	Ordinary Income (\$)	Distributions Payable (\$)	Other Losses (\$)	(Depreciation) (\$)	Earnings/ (Deficit) (\$)
U.S. Government Money Market Fund	59,520,962	(59,517,548)	(4,469,091)		(4,465,677)
U.S. Treasury Money Market Fund	5,920,490	(5,923,105)	(40,072)	_	(42,687)

As of the tax year ended October 31, 2024, the Funds had net capital loss carryforwards ("CLCFs") not subject to expiration as summarized in the table below. The Board does not intend to authorize a distribution of any realized gain for the Funds until any applicable CLCF has been offset.

	Short Term Amount (\$)	Long Term Amount (\$)	Total (\$)
U.S. Government Money Market Fund	4,469,091	_	4,469,091
U.S. Treasury Money Market Fund	39,280	792	40,072

The amount and character of net investment income and net realized gains distributed are determined in accordance with federal income tax regulations, which may differ from GAAP. These "book/tax" differences are either considered temporary or permanent in nature. To the extent these differences are permanent in nature (e.g., reclassification of market discounts, certain gain/loss and certain distributions), such amounts are reclassified within the composition of net assets based on their federal tax-basis treatment; temporary differences (e.g., wash sale losses and post-October loss deferrals) do not require reclassification. To the extent distributions to shareholders from net investment income and net realized gains exceed net investment income and net realized gains for tax purposes, they are reported as distributions of capital.

A---!4-11---

Notes to Financial Statements - April 30, 2025 (Unaudited) (continued)

During the year ended October 31, 2024, the Funds utilized capital loss carryforwards for U.S. federal income tax purposes as follows:

	Capital Loss Carry Forward Utilized (\$)
U.S. Government Money Market Fund	2,602,623
U.S. Treasury Money Market Fund	

7. Significant Shareholders:

Shareholders, including other funds, individuals, and accounts, as well as each Fund's Investment Adviser and/or investment personnel, may from time to time own (beneficially or of record) a significant percentage of the Fund's shares and can be considered to "control" the Fund when that ownership exceeds 25% of the Fund's assets (and which may differ from control as determined in accordance with GAAP).

The following list includes the Funds which had individual shareholder accounts with ownership of voting securities greater than 10% of the total outstanding voting securities but less than 25% and/or accounts with ownership of voting securities greater than 25% of the total outstanding voting securities. Significant transactions by these shareholder accounts may negatively impact the Funds' performance.

	Number of shareholders with ownership of voting securities of the Fund greater than 10% and less than 25% of the total Fund's outstanding voting securities	Percentage owned in aggregate by 10% - 25% shareholders (%)	Number of shareholders with ownership of voting securities of the Fund greater than 25% of the total Fund's outstanding voting securities	Percentage owned in aggregate by greater than 25% shareholders (%)
U.S. Government Money Market Fund	3	34	_	_
U.S. Treasury Money Market Fund	. <u>—</u>	_	1	28

As of April 30, 2025, the Investment Adviser and/or its affiliates owned less than 1% of each Fund's outstanding voting securities.

8. Recent Accounting Pronouncements:

In December 2023, the FASB issued ASU No. 2023-09, Income Taxes (Topic 740) – Improvements to Income Tax Disclosures. The amendments enhance income tax disclosures by requiring greater disaggregation in the rate reconciliation and income taxes paid by jurisdiction, while eliminating certain outdated disclosure requirements. The ASU is effective for annual periods beginning after December 15, 2024, with early adoption permitted. Management is currently evaluating the impact of the ASU but does not expect it to have a material impact on the financial statements.

9. Subsequent Events:

Subsequent events occurring after the date of this report have been evaluated for potential impact, for purposes of recognition or disclosure in the financial statements, through the date the report was issued and no adjustments or additional disclosures were required to the financial statements.

Additional Information - Investment Adviser Contract Approval (Unaudited)

Section 15(c) of the Investment Company Act of 1940, as amended (the "1940 Act"), generally requires that a majority of the trustees of a mutual fund who are not "interested persons" of the fund or the investment adviser, as defined in the 1940 Act (the "Independent Trustees"), review and approve the investment advisory agreement at an in-person meeting for an initial period of up to two years and thereafter on an annual basis. A summary of the material factors considered by the Independent Trustees and the Board of Trustees (the "Board") of HSBC Funds (the "Trust") in connection with approving the renewal of the investment advisory agreements for the HSBC U.S. Government Money Market Fund and HSBC U.S. Treasury Money Market Fund, each a series of the Trust (each, a "Fund" and, together, the "Money Market Funds"), and the conclusions the Independent Trustees and Board reached in considering the factors are set forth below.

Annual Continuation of Advisory Agreements for the Money Market Funds

On October 25, 2024 and December 17, 2024, the Independent Trustees met separately in executive sessions that took place via Zoom on October 25, 2024 and in-person on December 17, 2024 (the "Executive Sessions") to consider the renewal of the Investment Advisory Contract and related Supplements (the "Advisory Contracts") between the Trust and HSBC Global Asset Management (USA), Inc. (the "Adviser") with respect to the Money Market Funds. At the December 18, 2024 meeting of the Board (the "December Meeting"), the Board unanimously voted to approve the continuation of the Advisory Contracts.

Prior to the December Meeting and Executive Sessions, the Independent Trustees requested, received and reviewed information to help them evaluate the renewal of the Advisory Contracts. This information included, among other things, information about: (i) the services provided by the Adviser; (ii) the personnel who provide such services; (iii) investment performance, including comparative data provided by Institutional Shareholder Services ("ISS"); (iv) trading practices of the Adviser; (v) fees received by the Adviser, including in comparison to the advisory fees paid by other similar funds based on materials provided by ISS; (vii) total expense ratios, including in comparison to the total expense ratios of other similar funds provided by ISS; (vii) the profitability of the Adviser; (viii) compliance-related matters pertaining to the Adviser; (ix) regulatory developments, including final rulemakings as well as rulemaking initiatives of the Securities and Exchange Commission ("SEC"); and (x) other information regarding the nature, extent and quality of services provided by the Adviser under the Advisory Contracts.

The Independent Trustees were separately advised by independent counsel throughout the process, and met with independent counsel in periodic executive and private sessions at which no representatives of management were present, including during the Executive Sessions. During the October 25, 2024 Executive Session and prior to voting to continue the Advisory Contracts, the Independent Trustees also received a memorandum from their independent counsel discussing the legal standards for their consideration of the proposed continuation of the Advisory Contracts.

The Board, including the Independent Trustees, considered and reviewed, among other things: (i) the information provided in advance of the December Meeting and Executive Sessions; (ii) the Money Market Funds' investment advisory arrangements and expense limitation agreements with the Adviser; (iii) the fees paid to the Adviser pursuant to the Trust's agreements with the Adviser for the provision of various non-advisory services, including the Amended and Restated Administration Services Agreement and Operational Support Services Agreement, and the terms and purpose of these agreements and comparative information about services and fees of other peer funds; (iv) regulatory considerations; (v) the Adviser's advisory services; (vi) the Adviser's profitability and direct and indirect expenses; and (vii) additional information provided by the Adviser at the request of the Independent Trustees, following the October 25, 2024 Executive Session.

In addition, the Board took into consideration its overall experience with the Adviser, and its experience with the Adviser during the prior year, as well as information contained in the various written and oral reports provided to the Board, including but not limited to quarterly performance reports prepared by management containing reviews of investment results and periodic presentations from portfolio managers, product managers and other senior employees of the Adviser. As a result of this process, at the December Meeting, the Board unanimously agreed to approve the continuation of the Advisory Contracts with respect to each Fund. The Board reviewed materials and made their respective determinations on a Fund-by-Fund basis.

Additional Information - Investment Adviser Contract Approval (Unaudited) (continued)

Nature, Extent, and Quality of Services Provided by Adviser. The Board, including the Independent Trustees, examined the nature, quality and extent of the investment advisory services provided by the Adviser to the Money Market Funds, as well as the quality and experience of the Adviser's personnel.

The Board, including the Independent Trustees, also considered: (i) the long-term relationship between the Adviser and the Money Market Funds; (ii) the Adviser's reputation and financial condition; (iii) the assets of the Money Market Funds; (iv) the Adviser's ongoing commitment to the Money Market Funds; (v) the business strategy of the Adviser and its parent company and their financial and other resources that are committed to the Money Market Funds' business; (vi) the capabilities and performance of the Adviser's portfolio management teams and other personnel; and (vii) the support, in terms of personnel, allocated by the Adviser to the Money Market Funds.

The Board also considered the voluntary and contractual fee waivers provided by the Adviser to maintain a competitive yield for the Money Market Funds. In addition, the Board considered the Adviser's performance in fulfilling its responsibilities with respect to the Money Market Funds' compliance policies and procedures and investment objectives. Furthermore, the Board took into consideration the extent and amount of work being undertaken by the Adviser to manage the Money Market Funds and the volatility of shareholder flows in a changing interest rate and regulatory environment.

Based on these considerations, the Board, including the Independent Trustees, concluded that the nature, quality and extent of the services provided by the Adviser supported continuance of the Advisory Contracts.

Investment Performance of the Funds and Adviser. The Board, including the Independent Trustees, considered the investment performance of each Fund over various periods of time, as compared to comparable peer funds and other accounts managed by the Adviser.

The Board also considered additional expense waivers that the Adviser had provided at times throughout the year in order for the Money Market Funds to maintain their competitiveness.

The Board, including the Independent Trustees, considered the Adviser's commitment to continue to evaluate and undertake actions to help generate competitive investment performance. The Board, including the Independent Trustees, concluded that under the circumstances, the investment performance of each Fund was such that the Advisory Contracts should continue.

Costs of Services and Profits Realized by the Adviser. The Board, including the Independent Trustees, considered the costs of the services provided by the Adviser and the expense ratios of the Money Market Funds more generally. The Board considered the Adviser's profitability and costs, including, but not limited to, an analysis provided by the Adviser of its estimated profitability attributable to its relationship with each Fund. The Board also considered the contractual advisory fees under the Advisory Contracts, as well as contractual expense limit agreements in force, and compared those fees to the fees of similar funds, which had been compiled and provided by ISS.

The Board determined that, although some competitors had lower fees than the Money Market Funds, in general, each Fund's advisory fee was reasonable in light of the nature and quality of services provided, noting the price competitiveness of the money market industry, as well as the resources, expertise and experience provided to the Money Market Funds by the Adviser.

The Board also considered information comparing the advisory fees under the Advisory Contracts with those of other accounts managed by the Adviser.

The Board, including the Independent Trustees, concluded that the advisory fees payable to the Adviser were reasonable in light of the factors set forth above.

Additional Information - Investment Adviser Contract Approval (Unaudited) (continued)

Other Relevant Considerations. The Board, including the Independent Trustees, also considered the extent to which the Adviser had achieved economies of scale, whether the Money Market Funds' expense structure permits economies of scale to be shared with the Money Market Funds' shareholders and, if so, the extent to which the Money Market Funds' shareholders may benefit from these economies of scale. The Board also noted the contractual caps on certain Fund expenses provided by the Adviser with respect to each Fund in order to reduce or control the overall operating expenses of the Money Market Funds and noted the Adviser's entrepreneurial commitment to the Money Market Funds. In addition, the Board considered certain information provided by the Adviser with respect to the benefits they may derive from their relationship with the Money Market Funds and the benefits the Money Market Funds may derive from their relationship with the Adviser.

In approving the renewal of the Advisory Contracts, the Board, including the Independent Trustees, did not identify any single factor as controlling, and generally attributed different weights to various factors for each Fund. The Board evaluated all information available to them on a Fund-by-Fund basis, and their decisions were made separately with respect to each Fund. In light of the above considerations and such other factors and information it considered relevant, the Board by a unanimous vote at the December Meeting (including a separate unanimous vote of the Independent Trustees at the December Meeting) approved the continuation of the Advisory Contracts.
